Latest Exam Guide & Learning Materials

Exam : **HPE2-E75**

Title : **Selling HPE Edge-to-Cloud Solutions (2021)**

Vendor : **HP**

Version : **DEMO**

NO.1 What is one way Aruba solutions enhance unified communications (UC) and collaboration?

- A. by redirecting compute-intensive apps to wired connections
- B. by providing low latency networks with end-to-end quality of service
- C. by giving mobile devices highest priority on the network
- D. by ensuring all forms of traffic are treated in the same way

Answer: D

NO.2 What is one way Aruba networking solutions improve the user experience?

- A. by giving mobile devices highest priority on the network
- B. by redirecting compute-intensive apps to wired connections
- C. by ensuring all forms of traffic are treated in the same way
- D. by providing high-speed Wi-Fi with wire-like reliability

Answer: D

NO.3 What did the acquisition of SGI add to the HPE portfolio?

- A. metering of IT resource usage
- B. high-performance computing for real-time analytics
- C. user and entity and behavior analytics
- D. InfoSight predictive analytics

Answer: B

NO.4 What is one way HPE and Aruba solutions help to enhance security?

- A. They ensure that archived data is encrypted and compliant with regulations.
- B. They build a silicon root of trust into IoT device hardware.
- C. They can onboard, monitor, and apply policies to BYOD and IoT devices.
- D. They confine data and memory-driven computing to the network core.

Answer: C

NO.5 Which customer need is often associated with Platform as a Service (PaaS)?

- A. the need for a more cost effective way for employees to access applications.
- B. the need for an on-demand model for scaling big data storage
- C. the need for a faster delivery of development environments for cloud-native app
- D. the need for a faster way to deploy virtual machines (VMs)

Answer: C

Explanation

NO.6 What is a distinctive benefit of IT as a Service (ITaaS) versus other consumption models?

- A. Customers pay as they go for the IT resources and services need.
- B. Customers amortize on-premises assets, reducing their value gradually over time.
- C. Customers use a flexible CAPEX funding model.
- D. Customers have the choice of using CAPEX or OPEX as the funding model.

Answer: A

NO.7 A customer wants to know how the HPE hosted desktop solution compares with VDI. What is a good way to answer?

- A.** The HPE solution ensures that employees' devices locally store all the data that they need.
- B.** The HPE solution better meets today's demands for network bandwidth, compute, and graphics performance.
- C.** The HPE solution provides the greater level of visualization required for today's automation needs.
- D.** The HPE solution's main advantage is its lower expense and greater ease of management than VDI.

Answer: B

NO.8 What is a simple way to describe digital transformation to customers?

- A.** New apps are being created to stop data from growing so quickly.
- B.** Apps and data are merging into a single platform.
- C.** Everything around us is becoming connected and sharing data.
- D.** IoT devices are replacing traditional desktop computers.

Answer: C

NO.9 What is the current impact of big data and Hadoop on enterprise data centers?

- A.** Most companies have successfully implemented Hadoop already; you will find the most promising opportunities in moving customers from Hadoop to online transactional databases.
- B.** Most companies have found that Hadoop is less effective for handling big data; they prefer open-source solutions such as SAP HANA.
- C.** Half of enterprise customers have implemented Hadoop, but most still experience issues, partially due to an infrastructure not designed to support big data.
- D.** Hadoop is a new technology, and most enterprises are waiting to implement it until larger companies, such as Google, have demonstrated its effectiveness.

Answer: C

NO.10 What is one way that HPE powers the Intelligent Edge?

- A.** by redefining mobile as high quality and secure
- B.** by re-designing IoT hardware for security
- C.** through its innovative industrial IoT apps
- D.** through its investments in processor-driven computing development

Answer: C
